

St. Odilia completed its sixth year using the Northwest Evaluation Association's (NWEA) standardized tests, the Measures of Academic Progress (MAP). MAP tests are computer administered and scored achievement tests designed to measure growth in student learning for individual students, classrooms, and the school as a whole. Tests for mathematics and reading are given to grades K-8. Tests for language usage are given in grades 2-8. Tests for science are given to students in grades 5 and 7. St. Odilia administers MAP in these areas during the fall and spring to all students. The math test was also administered during the winter session in all grades this year.

Scores are reported in RIT units. The RIT Scale is a curriculum scale that uses individual item difficulty values to estimate student achievement. The RIT scale is an equal interval scale. Equal interval means that the difference between scores is the same regardless of whether a student is at the top, bottom, or middle of the RIT scale, and it has the same meaning regardless of grade level.

St. Odilia students' average scores in math, reading, and language are higher than the national average in every grade level, with many grade's averages in the 90th percentile or above nationally. St. Odilia averaged more the nine RIT points above the national average- amounting to a full grade level or more above national norms in most grades.

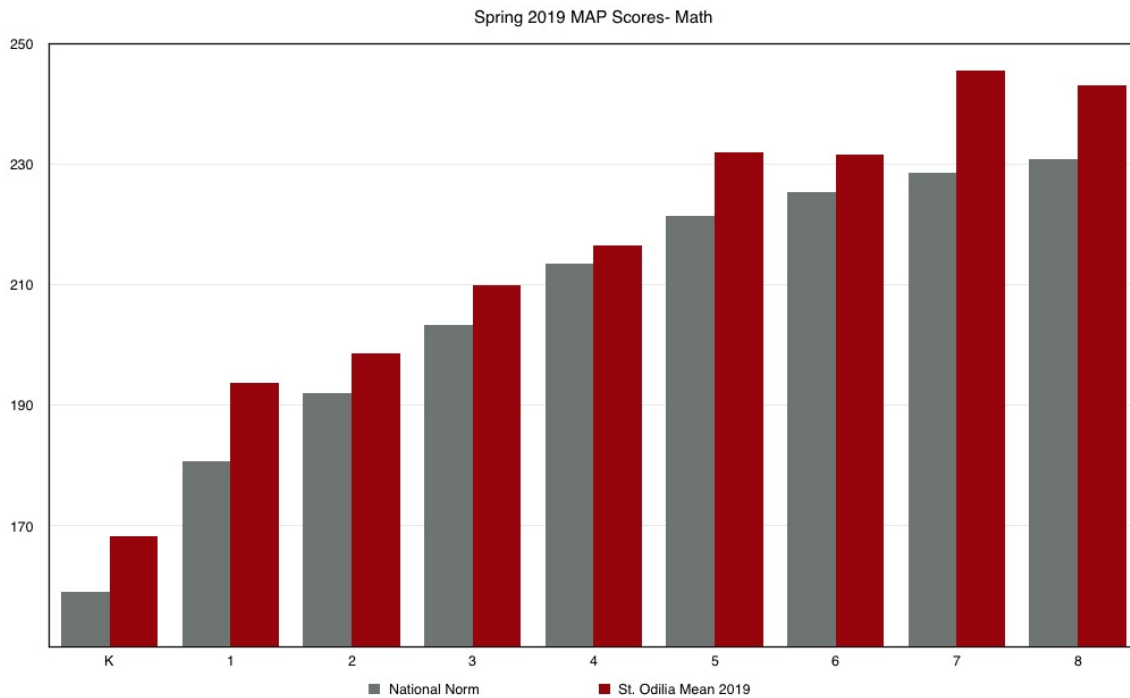

A visual summary of St. Odilia's spring testing results is shown below. Each graph shows the average score for St. Odilia students at each grade level as compared to the national average at that grade level.

While we are happy with our scores compared to the national average, we have shifted our focus to a growth mindset when looking at our results. In this way, we can use our data to help our teachers identify specific skills to target in the classroom in order to ensure students are growing in their knowledge in the subjects tested.

In the fall, St. Odilia teachers analyzed previous years' growth numbers by identifying the percentage of students who meet or exceed their projected growth. Nationally, 50% of students meet or exceed their projected growth. At St. Odilia, we found on average 55% of our students met or exceeded their growth. With that in mind, we made a school goal that 60% of our students

would meet or exceed their growth projection this school year. We placed an emphasis on math as that was our lowest performing of the four subject areas. Teachers received professional development three separate times during the year in which a facilitator helped teachers analyze their fall and winter math MAP results. Teachers used these results to help plan whole group instruction and identify skills that individual students were ready to learn. This extra effort resulted in 60.2% of St. Odilia students meeting or exceeding their projected growth in math. St. Odilia hopes to continue and build upon this success next year!

St. Odilia School 2019 Spring Map Results

Grade	K	1	2	3	4	5	6	7	8
National Norm	159.1	180.8	192.1	203.4	213.5	221.4	225.3	228.6	230.9
St. Odilia Mean 2019	168.3	193.8	198.6	210.0	216.5	232	231.5	245.5	243.1

Spring 2019 MAP Scores- Reading

Grade	K	1	2	3	4	5	6	7	8
National Norm	158.1	177.5	188.7	198.6	205.9	211.8	215.8	218.2	220.1
St. Odilia Mean 2019	162.3	185.1	194.6	207.7	213.1	221.5	222.2	233.7	230.1

Spring 2019 MAP Scores- Language

Grade	2	3	4	5	6	7	8
National Norm	189.7	200.0	206.7	211.5	215.3	217.6	219.0
St. Odilia Mean 2019	196.9	208.4	215.2	220.2	222.4	232.3	230.3

Spring 2019 MAP Scores- Science

Grade	5	7
National Norm	205.3	210.9
St. Odilia Mean 2019	211.0	221.5
